

Petition to Whole Foods Corporation: End the sale of rabbit meat in your stores.

November 8, 2014

To: Walter Robb, Co-Chief Executive Officer

John Mackey, Co-Chief Executive Officer

Please do not sell rabbit meat in any Whole Foods stores. Bunny rabbits are the 3rd most popular household pet in America. They are loving companion animals, who, just like dogs and cats, bond with their humans and mates for life! Rabbits have individual personalities, show affection, and want to be a part of the family. Regardless of how rabbits are raised, every breed is a domesticated pet that can be found at the Humane Society and at hundreds of rabbit rescues across the nation. Please move in the direction of compassion and realize these animals are pets, not food. Many of the animal lovers signing this petition have pledged not to shop at Whole Foods until you stop carrying rabbit meat in all of your stores!

Sincerely,
